VAT Services

Are you prepared to handle VAT?

The Value Added Tax, commonly called VAT in business, is the most common type of consumption tax levied on goods and services.

The Federal Law No. (7) of 2017 on Tax Procedures in the UAE which describes the appointment of a Tax Agent,

Our VAT services vary from providing advice, helping you register for VAT or undertaking your VAT accounting to preparing & filing your VAT Returns, and can be tailored to the needs of your business.

Financial Accounting

Murad Majed Tax Consultancy (MTC) Corporate Advisors can be your partner as a bookkeeper, accountant and business advisor to deliver you a full range of bookkeeping and accounting services, while allowing you to focus on running your business.

1. General ledger & financial statement preparation
2. Bookkeeping (Monthly / Quarterly / Annual)
3. Accounting system setup for new businesses
4. Computerized payroll services
5. Personal financial statements

Audit

Our Audit services provide your organization critical information about your business requirements and more than just helping you meet your legal requirements. We will give you a better understanding of your business and where there is room for improvement and greater efficiency.

Consulting & Advisory Service

We advise clients on how to use business intelligence and analytics to access the right information at the right time in order to make more effective business decisions.

Audit Service

Our Audit service helps to identify weaknesses in the accounting systems and enables us to suggest improvements. An audit facilitates the provision of advice that can have real financial benefits for a business, including how the business is running, what margins can be expected and how these can be achieved. Advice can cover anything from the narrowing of internal controls, to reducing the risk of fraud.

Our efficient procedures may be advantageous if a company is growing and likely to exceed the turnover threshold in the near future.

VAT

UAE VAT Service

The Value added Tax, commonly called VAT, implemented in UAE from the 1st of January 2018. VAT is an expense that applies on use of all administrations and products. However, certain items such as medicines and school tuition fee have been exempted.

Our services cover all areas of highly specialized VAT advice requirements, leading us to work with different business categories.

We focus to give advice that takes your particular requirements into account. Business decisions should not be taken for VAT reasons alone, and so when you are looking for VAT advice, you will need to get a hold, and be familiar of the whole scenario.

We can help with a wide range of VAT issues from the simple to the complex. Although based in Somerset we provide advice to businesses throughout the UAE.

Our core values are honesty & integrity. All of our work is carried out and reviewed by our authorized Federal tax agent.
